## Grippers for safe displacement and vertically assembly of concrete rings.

Grippers intended for safe lifting and vertically transporting of concrete rings with diameters from 400 to 2000 mm. The grippers have a three-step adjustment, so you can reliably move the appropriate ring. The set consists of: ZŁ 3C - three-strand chain sling length 2.00 m, finished with three handles with the chosen gripping range.

### CERTIFIED PRODUCTS

ZŁ 3C gripping range **50-180mm**  
Permissible work load 3000 kg weight 55kg

ZŁ 3C gripping range **40-120mm**  
Permissible work load 1500 kg  
weight 27 kg

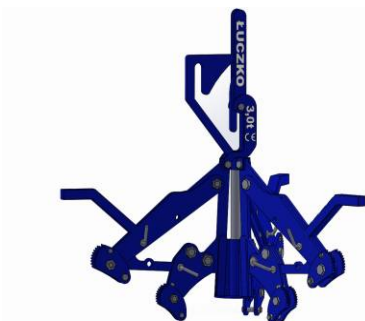

ZŁ 3C gripping range **50-160mm**  
Permissible work load 3000 kg  
Weight 45kg

ZŁ 3C gripping range **90-220mm**  
Permissible work load 3000 kg  
Weight 57kg

### THREE-ARM GRIPPERS FOR SEWAGE WATER WELLS AND CONCRETE RINGS

Gripping range 600-1500 mm  
Permissible work load 3000 kg weight 100kg

Gripping range 500-600mm  
Permissible work load 1000 kg weight 20kg

### One-man operator support

Thanks to the automatic release system for the clamp before and after work with the handle from the inside of the transported rings.
